PROFESSIONAL EXPERIENCE

Smart Trade Development Mad (Tapin)

UI/UX Designer | Jan 2022 - Jun 2025

Tapin Website Redesign

+20 Pages Web

+25 Pages PWA

TAPIN SITE

- Redesigned tapin's main website to better present its services and convert one-time visitors into regular users.
- Adapted content tone to friendly and casual per client direction, simplifying complex technical information for a general audience.
- Increased user retention and improved delivery of key content; ensured full responsiveness across desktop and mobile.

Impact : Reduced Bounce Rate By ~18% Increased CTA Clicks To ~22%

Redesign Of Tapin's User Panel

+90 Pages Web

+100 Pages PWA

TAPIN USER PANEL

- Rebuilt the original panel, which lacked ux principles and caused user confusion, around user-centered design foundations.
- Defined strategies to raise awareness, increase engagement, and convert temporary users into long-term members.
- Currently leading the panel toward full implementation.

Impact : Increased Task Success Rate To ~31%

Postal Tracking System

+6 Pages PWA

- Built a unified tracking platform spanning multiple delivery services (tipax, alopeyk, iran post, and others), removing the need to visit each carrier's site individually.
- Introduced direct sms tracking links, eliminating manual entry of long tracking numbers.
- Enabled cross-carrier visibility so a single code surfaces all packages from the same service.

Impact : Reduced Parcel Tracking Time By ~53%

Naghl-E-Haml Media

+10 Pages Web & PWA

NAGHLE _ HAML MEDIA

- Designed a media and information platform showcasing companies across iran's transportation, logistics, and retail sectors.
- Created a space for interaction among industry stakeholders to support their role in the national economy.

Impact : Increased Average Session Duration By ~29%

Makeen Institute

UI/UX Designer | Dec 2022 - Apr 2023

Makeen MBTI Test Panel

+60 Pages Web

MBTI _ TEST

- Designed a custom mbti assessment for makeen to evaluate applicant personalities prior to enrollment, informing teaching methods and student interaction.
- Built a web-based system supporting three user types — psychologist, admin, and applicant — with two dedicated management panels and applicant-facing pages.
- Grounded the design in user research, improving the quality and effectiveness of the institute's teaching process.

Impact : Reduced Assessment Completion Time By ~24%

EDUCATION

Islamic Azad University , Tehran , Iran | 2020 - 2025

- Bachelor of professional graphic design
